

Assignment

1. Visualization displaying - Total jobs in 2007 and 2013 by Generation (Using 'side-by-side circles' visualization – this type of visualization is used for 'comparison')

Total jobs in 2007 and 2013 by Generation

2007 Jobs and 2013 Jobs for each Generation. Color shows details about 2007 Jobs and 2013 Jobs.

a. What is the exact number of jobs for Millennials? and Baby Boomers?

- Exact no of jobs made by Millennials in 2007 and 2013 are 234,968,783 and 39,129,069
- Exact no of jobs made by Baby Boomers in 2007 and 2013 are 17,892,555 and 19,593,264

b. Which generation has a higher difference between the number of jobs in 2007 and 2013?

- Generation with higher difference : Baby boomer

c. Averages of number of 2007 and 2013 jobs for each of the generation Baby boomers and Millennials (two averages).

- Average no of jobs for Baby boomers: 18,742,910

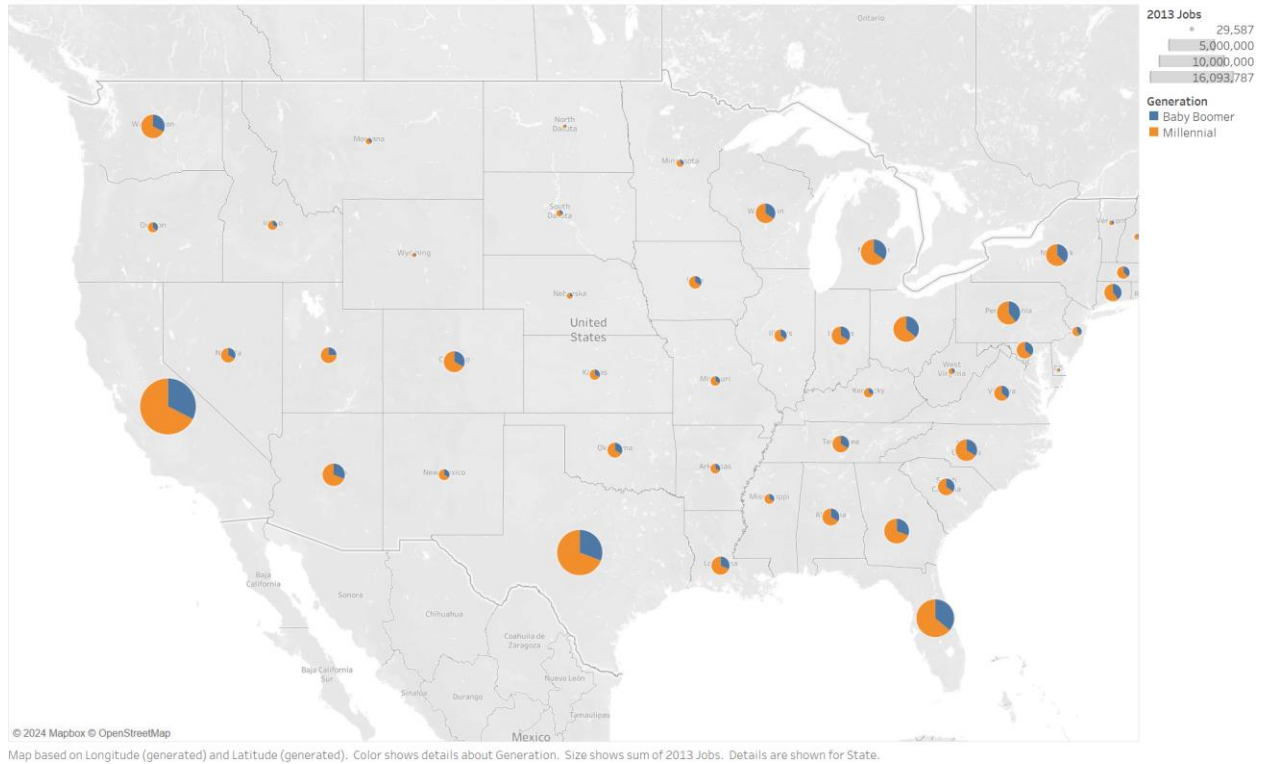

- Average no of jobs for Millennials: 35,048,926

2. Visualization displaying - Total jobs in 2007 and 2013 by Generation (using ‘map’ visualization)

Total jobs in 2007 and 2013 by Generation - Map

3. Visualization displaying - Top 5 occupations that had max. % Job change (using ‘horizontal bars’ visualization)

Top 5 occupations that had max. % Job change

Sum of % Job Change for each Occupation. The view is filtered on Occupation, which keeps Derrick Operators, Oil and Gas, Genetic Counselors, Rotary Drill Operators, Oil and Gas, Roustabouts, Oil and Gas and Service Unit Operators, Oil, Gas, and Mining.

4. Any other meaningful visualization using the ‘National 2-digit’ tab data.

Comment in at least 2 to 3 sentences on an insight from this visualization.

- Created a visualization that shows number of job changes by generation.

Insights: Baby Boomers experienced a significantly higher job change, exceeding 1.9 million (i.e. 1,945,665), while Millennials have seen a much lower rate, below 200K (i.e. 109,919). This disparity could be attributed to various factors including economic conditions, industry growth or decline, and work-life balance or professional development opportunities, and be more willing to change jobs to find a better fit.

5. Prepare Dashboard – showing all the 4 visualizations. Arrange the visualizations on one screen. Also give each visualization a ‘Title’ it should not show title as ‘Sheet 1’ etc

- Created a dashboard for all 4 visualizations.
